VASUNDHARA

ENGINEERING WORKS

Dear Sirs/Madam,

We thank you for giving us an opportunity to present ourselves a worthy Service Provider and why we should not be the one to do Labour Job.

About Us:

We are a Component (HR/CR/GI) manufacturing unit, ideally located at Sarigam GIDC Gujarat in an area of 1000 M2. We have bought recently a New Shed and shifted to new area so that we can service new Clients. Currently 60% of our capacity is dedicated to one of our important Client, who has given us more and more jobs to us for our ability and service. We want to expand our horizon and are looking for new clients as we grown with experience and ready for the new challenges. Every component thrown at us a Challenge and we meet those Challenges with time bound manner and we succeeded.

If you are looking for an associate and not just component manufacturer, we can provide you solutions you can't refuse.

1. We can be your partner to progress
2. We will maintain your Inventory all you have to do is give us your Schedule
3. Your requirements and drawing will be our guide and we will ensure that the component is developed on time.
4. We will manage your work by giving you daily progress report.
5. We ensure the prices are competitive as we don't believe in Short term association, We want to build trust for long run.
6. We have dedicated workforce which supports 24x7 needs and they are accommodated very close to factory.
7. We are your solution and not your follow ups neither we are your daily headache, we will report to you before you demand, so that you can work at ease and no need to follow ups.

Business Type	Manufacturer, Labor Job Work, Exporter
Our Advantage	Advance Machinery and Modern infrastructure, working 24 hours, Highly Professional and qualified staff, full fabrication and sheet metal facility all Under one roof.
No of staff	20 Employee
Establishment	2016
No of Production Line	2
Production Capacity	As per customer's Requirement
Product Range	Sheet Metal Fabrication, CNC Laser Cutting, Bending and Welding Services, Assembling, Cabinets, Sheet Metal Components, Enclosure Fabrication, Tank And Hopper Fabrication, as per customer's requirement product, Etc.
Service Offered	Fabrication Job, Laser Cutting, Plasma Cutting CNC Bending, Assembling Fabrication – MIG, ARGON, Spot, Stud welding, as per customer's requirement Product.

Quality :

We will ensure that your product meets highest standard, we have rigid inspection team, who ensures zero defects. We understand the product before we go into production, we assess its end use and ensure that all parameters are checked and if necessary small mock up is done batch wise if product demands and is critical.

Why we are different:

We have a good experienced partners Company who are in business for the last 20-25 years, and today they are our consultant.

We the young take the experience and mold with modern technology and create a balance to give our clients a product which is valuable for them.

We understand the Client's needs first and we create a confidence building session where in our Client is sure that his product is taken care by the right people.

We are not just manufacturer or service provider but an associate who will support you 24x7.

We undertake following Jobs for our OEM

1.Cutting Sheets and Pipes

2.Shearing

3.Embossing

4.Punching Work

5.Tapping

6.Tools development

7. Bending Work

8. Spot Welding

9.Co2 Welding

10.Arc Welding

11.Forming Work

12.Fabrication Work (Any type Of)

Machines and Tools

We have following machining/cutting capabilities:

Sharing Machine: This Machine Can Cut (CR/HR/GI) Up to 4MM Thickness x 1270MM Width)

Automatic Pipe Cutting Machine : We Have Cut Any Pipe Up To (3MM Thickness x 6000MM Length)

Semi Automatic Pipe Cutting Machine: We Have Cut Up To 2MM Thickness

SPM (Machine) For Drilling Work(2NOS): We Have SPM Machine For Drilling Up to 12MM And We Have Drill Multiple Hole At One Time

SPM (Machine) For Tapping Work: We Have SPM Machine For Tapping Up to 12MM And We Have Tapping Multiple Hole At One Time

Singel Spot Welding Machine(2NOS): We Have Singel Spot Machine We Weld Up To 3MM

Hydraulic power press (80 Ton)(2 Nos): We Have Hydraulic Power Press For Any Type Of Sheet Metal Work

Mechanical power press(50 Ton,30Ton 10Ton): We Have Mechanical Power Press For Any Type Of Sheet Metal Work (Bending,Cutting,Embossing Work)

CO2 Welding Machine(2NOS): We do Any Type of Welding Work

Horizontal Metal Cutting Band Saw Machines: It can cut round bars, flats, angles, channels, pipes

CNC Laser Machine: This machine can cut any material up to 10 mm thickness.

VMC Machine (Sigma Italy): This machine has travel capacity of 1050 mm on X axis, 550 mm on Y axis and 600 mm on Z axis.

CNC Plasma Machine (Hupertherm USA): This machine can cut SS material upto 16mm and MS material up to 20 mm.

Drill Machines: We have 2 simple drill and 4 magnetic drill machines. We also have foundry unit operating next to our workshop with working area of 1000 SQ. FT.

SERVO Tapping Machine : 2 Nos
